NO MORE lives cut short by breast cancer

Tee Off is a national initiative where clubs all over Australia are invited to combine their love of golf with their passion to raise funds for breast cancer clinical trials research.

Breast Cancer Trials is one of the world's leading breast cancer research organisations, dedicated to finding new and improved treatments and prevention strategies for people affected by this disease.

Breast cancer clinical trials research is the only way to get better treatments to all Australians living with breast cancer.

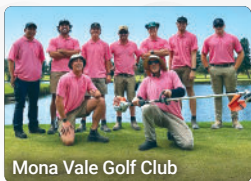

Everyday, 58 Australians are diagnosed with breast cancer and nine women will lose their life to this disease. Your Tee Off event can reduce the devastating impact of this disease and stop breast cancer taking the people we love.

The more clinical trials you help fund, the sooner new treatments can help people in your community facing breast cancer.

2024 wrap up

We are proud to announce that over \$280,000 was raised during our 2024 Tee Off season. This would not have been possible without the generosity of golfers across Australia who stepped up to support breast cancer research.

Thank you to the below clubs and many others that made the generous decision to hold a Tee Off event in 2024!
