

58km in September Dog Walk Challenge Help Article

Do you have to have Facebook to donate?

To donate to your fundraising page, your friends and family will need to have a Facebook account.

If they do not have a Facebook account one of the following solutions may assist you:

1. Your friends can give you a cash donation or transfer the funds to you and then you can make the donation online through your fundraising page on their behalf. You will just need to confirm their email address so your friend who is donating will then receive the donation receipt directly for taxation purposes. When you're ready to make the donation on their behalf you can add their email address once you get to the payment screen (see screen shot).

2. You can also provide them with this link and they can make a donation via our main website: <https://www.breastcancertrials.org.au/donate-make-a-gift-now/>.

Please note, if they donate via our main website and not via your Facebook fundraising page, their donation unfortunately won't be displayed on your fundraising page and your total amount fundraised won't reflect this donation due to Facebook restrictions.

If they donate via our main website, they will need to click 'yes' when asked if their donation is in celebration of an event or special occasion and type your name, so we know the donation is in support of your participation in this challenge.
